R-Atoka, provides that for any fiscal year for which the amount of revenue available for appropriation by the Legislature, as determined by the State Board of Equalization at its February meeting is less than the amount of revenue determined by the Board at its preceding June for the then-current fiscal year, any apportionment of revenue provided for by law to a fund or source other than the General Revenue Fund is to be reduced by the same percentage that the amount available for appropriation by the Legislature for the upcoming fiscal year is less than such amount for the then-current fiscal year.
